STATUS OF THE CLAIMS

Claims 1-13 are pending in this application.

ELECTION OF SPECIES REQUIREMENT

Claims 1 and 8-13 are generic to a plurality of disclosed patentably distinct species containing peptide derivatives encompassing numerous alkanoyl groups (claims 1-7), pharmaceutical composition therefrom (claim 8), method for treating cancer by administering said pharmaceutical composition thereof (claim 9) and a method of synthesizing or generating said peptide derivatives therefrom (claims 10-13). The peptide derivatives encompassing various alkanoyl groups such as acetyl, n-butanoyl, n-octanoyl, myristoyl, palmitoyl, etc. are different peptidic compound species as recited in claims 1-7 that require different classification, and as such, different bibliographic and/or literature, manual and computer search (i.e., burdensome search necessary). Therefore, Applicant is required under 35 U.S.C. 121 to elect a single disclosed species (i.e., a single peptidic compound), and to list all claims readable thereon including those subsequently added, even though this requirement is traversed. Further, Applicant should include a chemical structure of the elected species/peptidic compound if it is not disclosed in the specification.

Should Applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 1653

Examiner finds one of the species/inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the species to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected species, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

CONCLUSION AND FUTURE CORRESPONDENCE

Claims 1-13 are subject to election of species requirement.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Abdel A. Mohamed whose telephone number is (703) 308-3966. The examiner can normally be reached on Monday through Friday from 7:30 a.m. to 5:00 p.m. The examiner can also be reached on alternate Fridays.
